

Thierry Murcia

REVISITED SONGS AND INSTRUMENTALS

Influenced by 70's rock stars (Pink Floyd, AC/DC, Status Quo...), he got his start by playing with progressive and rock live bands in the south of France.

Quickly, he accompanied French Artists in both live or TV performances as well as contributed to many songs in recording studios. During the late 80's, he founded his own band from up to 13 musicians traveling all around the south of France for nearly 11 years and has been performed over 600 gigs.

For more than 6 years, he performed a solo act in restaurants in the metal/fusion style, 60's, Latin music and during 10 years he made his mark as soloist performer and Duet with a singer in the 5 stars restaurants as well as distinguished audiences.

At the same time, as composer, arranger and conductor, he contributed again on songs for local Artists and appears on French TV.

In 2015, he founded the SWAG TRIO his latest success has been performing on big stages in Electro-jazz style. His current plans are a smooth jazz solo album spreading the word to music lovers from his heart to yours.

Nylon, electric or folk guitar, whatever, as long as the music rocks your heart.
